Note: Because of the instability of pass ratios based on small numbers of administrations, pass ratios should not be interpreted for exams administered less than thirty times.

* -- Candidates taking the exam several times are counted only once.

¹ -- The "First" ratio is the percentage of candidates who passed the examination the first time they took it.

² -- The "Overall" ratio is simply the ratio of the number of passes to the number of exams administered

³ -- The "Success" ratio is the percentage of candidates who passed the exam this quarter without regard to the number of attempts.
