The Right Solutions for Continuing Education
Confronted by increasing demands of creating coursework that is relevant and in sync with ever-changing state rules and regulations, more and more Continuing Education administrators are looking for ways to stay ahead by becoming more cost efficient while becoming more productive.

As a trusted provider of marketing-leading testing and assessment and the first Continuing Education vendor in the nation, Prometric delivers Continuing Education Solutions to help you overcome your many challenges. No one else understands the pressure points and details better than we do. Whether it's ensuring that course materials are relevant and consistent, providing help to understaffed administrators, or keeping pace with state mandates, you can count on us. We are always on the job to protect the credibility and reputation of their programs.

Stay Ahead with the Right Solutions

Our combination of industry experience, testing expertise and client-centric technologies and services has made us the preemptive choice of organizations committed to the integrity of their programs. Our cost-effective solutions reduce overhead and administrative burden, ensure competency-based learning and protect the legitimacy and reputation of your program. Whether you need specific services or a comprehensive program provider, you can turn to Prometric to get the job done.

Test Delivery: Prometric administers more than 10 million exams to test takers each year worldwide. We have created the largest and most secure test delivery system in the world, one that delivers tests every day of the week, any week of the year, in approximately 10,000 individual testing centers in more than 160 countries. From test distribution and administration, to eligibility, scheduling and registration, to identity management and voucher distribution, to billing and payment, we deliver exams with the highest quality and security standards. Our full range of Test Delivery Solutions includes complete capabilities in the following:

- Test Administration
- Security
- ID Management and Security
- Scheduling and Registration
- Billing and Payment
- Network Management
- Test Distribution

Continuing Education Services: Whether you are looking for a partner to develop and administer your entire licensure and continuing education program, or a provider for specific programs support services, Prometric has a proven, cost-effective solution that will work for you.

Our deep experience allows us to provide a wide range of services, all fortified with industry knowledge, testing expertise and important quality control mechanisms that protect the integrity of your programs. With experience in a wide range of industries, from insurance and real estate to healthcare, financial and associations, we are always working on new ways to deliver more value while reducing the costs and staff hours required to administer your program. We have an unsurpassed record of client and licensees satisfaction for our services, services that include:

- Test Development and Continuing Education Course Reviews: With deep industry knowledge and unmatched testing experience, we can provide exceptional test development services, including competency-based item and curriculum development, continuing education course reviews, determination of continuing education hour awards, compliance calculations, and more.

- Provider and Instructor Review: We audit courses to ensure that instructors are adhering to approved course outlines and expectations so that your licensees receive the proper training and skill development. Our evaluators have extensive industry experience and advanced training to apply the proper program requirements when evaluating courses.

- Specialized Call Center Support: Each continuing education program can have its own toll-free number to provide prompt, clear and accurate responses during normal business hours. Having a resource to handle calls reduces the number of program-related calls to your office.

- Training and Outreach: Prometric staff is highly trained, and stays abreast of current regulations and industry issues, which allows you to comfortably rely on the fact that regulations are met and licensees are well served.

- Licensee Record Administration: With our automated recordkeeping services, clients, instructors and licensees can have access to records which are updated in real time so that they can easily track progress and plan.

With Prometric, you can count on:

- A Personalized Approach to support the specific requirements of administering your program
- Dedicated Call Centers staffed with associates who are easy to reach and extensively trained in the details of your program, enabling them to effectively answer questions and address concerns
- Flexibility to handle your needs with services that can be purchased separately or as part of a turnkey program
- Insight and Industry Knowledge account management teams that are knowledgeable about your industry and the concerns of your staff and licensees
- A Commitment to Compliance: Auditing and enforcement are hallmarks of a Prometric-administered program, with services that protect the integrity and perceived value of your program
- Client Experience: ongoing support from experts with extensive industry experience and advanced training
- Value: cost-effective solutions for pre-licensing and continuing education that reduce the burdens and expenses associated with program administration

Selecting the right provider to help you develop and administer your pre-licensing and continuing education programs is an important decision. You want someone you can trust, an experienced provider that understands your industry and the specific requirements of your program. A leader in test development and delivery for more than 20 years, we at Prometric have a proven ability to deliver the right solutions for your continuing education program needs. With Prometric, you can count on:
Prometric, a wholly-owned subsidiary of ETS, is a trusted provider of technology-enabled testing and assessment. Its market-leading test development and test delivery solutions allow clients to develop and launch global testing programs as well as accurately measure program results and data. Prometric reliably develops, delivers and administers more than 10 million tests a year on behalf of approximately 400 clients in the academic, financial, government, healthcare, professional, corporate and information technology markets. It delivers tests flexibly via the Web or by utilizing a robust network of more than 10,000 test centers in more than 160 countries.
