

PROMETRIC

The Right Solutions for
Testing Accommodations

Testing organizations play an active and significant role in the determination and use of testing accommodations for candidates with disabilities. Ensuring that your candidates with unique needs have full access to the programs and services that are available to their nondisabled peers require that you, in collaboration with your testing provider, offer appropriate testing accommodations.

At Prometric, our Testing Accommodation Solutions enable your test takers, regardless of their disabilities and challenges, to test on a level playing field. Our family of solutions offers basic administration of each testing accommodations request as well as a comprehensive line-up of testing assistance, tools and devices that meet most needs, whether they involve scheduling/timing, location/setting, software, equipment or personal assistants.

Achieve High Standards with Individualized Accommodations

While requests for testing accommodations must be reasonable, pre-approved (based upon appropriate documentation) and scheduled prior to the test taker’s appointment, we are committed to making sure your candidates receive the appropriate accommodations. Our Testing Accommodation Solutions include the following:

Helps coordinate the administrative processing of the testing accommodations for test sponsors’ pre-approved testing candidates.

Offers your testing accommodations candidates a comprehensive array of selections that range from a sign language interpreter, additional testing time, or recorder for sight-impaired candidates. These accommodations also include the permissions to bring personal items into the testing room for medical purposes (i.e., food, drink, medication, devices, etc.).

Scheduling Times and Locations

Extra Time	Additional time that extends the exam period, including double time, extra time required for candidates speaking English as a second language, etc.
Paper & Pencil Exams	Exams that are converted from a computerized test into a paper version
Separate Room	Testing room that delivers extra privacy
Other	Testing accommodations that meet other reasonable requests not already listed here

Equipment

Adjustable Height Table	Tables that adjust up and down to assist test taker needs, such as wheelchair accessibility
Anti-glare Screen	Plastic screens that fit over computer monitors to reduce sun/light glare
Bed Board	Equipment that elevates keyboards to assist needs
Calculator	On-screen calculator that is non-programmable
CRT Monitor	Monitor that displays images with a lower resolution
Ergonomic Keyboard	Keyboards that are designed with ergonomic considerations to minimize muscle strain and a host of related problems
Flat Screen Monitor (21-inch)	Monitor that displays higher image resolution
Headmaster Mouse	Mouse that helps test takers with limited or no hand mobility
Intelikeys Keyboard	Keyboards with a variety of keypad layouts that provide access for those with physical, visual or cognitive disabilities
Kensington Expert Mouse	Mouse that helps test takers with limited hand mobility
Left-handed Mouse	Mouse that allows left-handed test takers to test with comfort
Noise Buster Headset	Headsets that cancel out stress-inducing background noise
Satellite Speakers	Small bookshelf speakers that amplify sound
Screen Magnifier	Equipment that features magnified screens and filters that enhance images by more than 2x for easy viewing and reduced eyestrain and fatigue
Table Top Riser/Stool	Equipment that helps test takers with sit/stand accommodations
Trackball Mouse	Large, finger-operated trackball for superior control while reducing hand and wrist movement
Oversize Chair (max 500lbs)	Armless chair that provides support getting in/out
USB Conversion Piece	Technology that converts ports to USB
Word-to-word Translation Dictionary	Book of English words that includes translations into other languages but does not include definitions of the words

Software*

Dragon	Speech recognition software that allows test takers to speak commands while it types in the response (when installed)
Jaws	Screen reading software that displays text to speech output (when installed)
Zoom Text	Advanced screen magnification software feature that enlarges and enhances image/text on the computer screen, making your computer easier to see and use

Personal Assistants

Sign Language Interpreter	Personal assistant who signs directions and/or exam content
Interpreter	Personal assistant who verbally translates exams from one language to another
Reader	Personal assistant who reads questions aloud to the test taker
Amanuensis/Recorder	Personal assistant who sits with test takers and enters exam answers under the direction of the test taker
Proctor	Personal assistant who oversees examinee testing and who monitors time
