

The trusted global provider of computer-based testing and assessment

Prometric is a trusted provider of technology-enabled testing and assessment services. Its market-leading test development and delivery solutions allow clients to develop and launch global testing programs as well as accurately measure program results and data. Prometric reliably delivers and administers more than 7 million tests a year on behalf of approximately 300 clients in the academic, financial, government, healthcare, professional and corporate markets. It delivers tests flexibly via the Web or by utilizing a robust network of more than 6,000 test centers in more than 180 countries.

Headquartered in Baltimore, Maryland, U.S., Prometric has corporate offices in more than 16 locations around the world.

Our Solutions

Prometric's unified testing and assessment approach streamlines how you connect with your content to produce better exams while enhancing quality, increasing productivity and offering more ways to test flawlessly.

Test Development – Our **Test Development Solutions**, backed by our team of experienced specialists, offer proven approaches to help clients design and develop reliable, secure, legally defensible and valid exams. At Prometric, we are well versed in developing test content for a wide array of organizations throughout the world, including Europe, the Middle East, Asia Pacific and the Americas. We have created a global pool of talented professionals who understand the specifics of regional and cultural differences and development in nearly 40 languages.

Test Delivery – Identifying the right mechanism and frequency by which exams are delivered is just as critical to the success of a test program as the quality of the test content. Our *Test Delivery Solutions* are unparalleled in their convenience, security and consistency. At Prometric, we administer more than 8 million exams to test takers each year – delivering tests every day of the week, any week of the year, in approximately 6,000 individual testing centers in more than 180 countries.
