## ***Taking Your Examination***

Your examination will be administered by computer at a Prometric test center using Prometric's user-friendly, Microsoft Windows®-based, computerized testing system. Testing centers are located throughout North America. Before you start the examination, you will receive a personalized tutorial to the testing system. The tutorial is not included as part of the testing time.

### **Arrival**

You should arrive at least **30 minutes** before your scheduled examination appointment in order to verify your identification and allow time for you to sign in. If you arrive late, you will not be admitted to the test center and will forfeit the application and examination fees.

### **Identification Required**

You will not be admitted without proper identification that is **current**. Identification will only be accepted if it meets **all** of the following criteria:

- Issued by a state or federal government agency including military IDs, other states in the United States, and foreign countries.
- Contains your photograph, visible signature and printed (typed) name.
- Has not expired.

**Important** Student or employee identification cards and government-issued IDs that do NOT contain a photo and visible signature will not be accepted. Failure to provide appropriate identification at the time of your examination is considered a missed appointment. You will not be admitted to the test center and will not be allowed to take the examination.

### **Examination Content**

Test plans, sample questions and reference lists that may be helpful for studying are located at <https://www.bpelsg.ca.gov/applicants/exam.shtml>.

### **Reference Materials**

You are not permitted to bring any reference materials into the testing room.

### **Testing Aids**

Examinees are allowed to bring the following approved items: engineer's ruler (scale), triangles (45 and 30/60/90 degree), a rolling ruler, ruler, and a protractor.

### **Calculator Usage**

You are limited to two (2) calculators in the exam testing area. The calculators that are allowed to be used for the Board's state-specific examinations include any handheld calculator that does not meet the exceptions listed:

The use of any calculating/computing device having a QWERTY keypad arrangement similar to a typewriter or a keyboard during the examination is strictly prohibited. The following devices are also prohibited, whether or not they have a QWERTY keypad function: Smartwatches (i.e. Apple watch and Fitbit or similar), palmtop, laptop, handheld or desktop computers, data collectors, personal data assistants (PDA), organizers, and tablet devices. Calculators with other alphanumeric keypads are acceptable. Notwithstanding the above, the Board or its designees have the right to prohibit the use of any device that, in the opinion of the Board, may pose a threat to examination security.

It is your responsibility to determine if your calculator meets the above criteria. Board staff or Prometric will not confirm whether your calculator is acceptable prior to your examination.

Please know that you could be required to clear your calculator memory upon exiting the examination. However, you will not be required to clear your calculator memory before you take the examination.

### **Scratch Paper and Pencils**

You will be provided with two (2) scratch paper booklets and pencils to use during the examination. You **may not** bring your own scratch paper to the examination. The test center administrator (TCA) will collect all scratch paper (used and unused) upon completion of the examination. Removing scratch paper from the test center is considered an act of misconduct.

Prometric's COVID-19 safety procedures currently prohibit Prometric from providing pencils for candidates to use on their scratch paper. Therefore, you may bring your own #2 wooden pencils to use during your exam until the safety procedures are no longer necessary. You may use up to two pencils at a time and store extra pencils in your locker for later use. Mechanical pencils will not be allowed.

The size of the workspace area at Prometric test centers is limited. The approximate desk dimensions are 48" in length and 24" in width. You may consider moving the keyboard behind the monitor to allow for a larger workspace to use your scratch paper and tools.

### **Examination Format**

You will have three (3) hours to complete the CSE, CEG, or CHG, and four (4) hours to complete the PGp. The time remaining for your examination is displayed in the upper right-hand corner of the computer screen. Once the examination has started time cannot be stopped if you choose to leave the testing area.

Exhibits will be accessible through the computerized testing system, if required.

### **Examination Security**

Failure to follow oral and written instructions and/or conduct that results in a violation of security or disrupts the administration of the examination could result in your removal from the test center, voiding of your examination results, and forfeiting your application and examination fees (See California Code of Regulations section 3035). Conduct which jeopardizes the integrity of the examination is a misdemeanor and in violation of Section 123 of the Business and Professions Code and may result in the imposition of a fine up to \$10,000.

## **Emergency Closings**

Severe weather or an emergency could require canceling the scheduled examination. If this occurs, Prometric will attempt to contact you by phone or email, however, you may check for testing site closures online at <https://www.prometric.com/closures>. If the site is closed, your examination will be rescheduled.

## **Your Examination Results**

At the end of your examination, you will receive a notice indicating that you have completed the examination. The Board will post the release date of the examination results on their website at [www.bpelsg.ca.gov](http://www.bpelsg.ca.gov). Once the examination scoring is finalized, the Board will send your examination results.

**Do not** contact the Board for your results. Results **will not be** given over the phone.

In order for you to receive your results, your address and email address must be current (30 days) prior to the release date. All address and email address changes must be submitted directly to the Board's online address change form on their website at [www.bpelsg.ca.gov](http://www.bpelsg.ca.gov).

**Score interpretation.** The Board will set the passing score to correspond to a minimum level of knowledge deemed acceptable by those persons who will be practicing as a Professional Geologist, Certified Engineering Geologist, Certified Hydrogeologist or Professional Geophysicist.

**Pass.** If you pass, your result report will only show a passing designation. It will not show a score. All score values above passing indicate that an examinee is qualified – not *how* qualified.

**Fail.** If you fail, you will receive a diagnostic report intended to help identify areas of strength and weakness for further study prior to retaking the examination. If you fail the examination, you must retake it in its entirety. For additional information regarding the diagnostic report, visit the Board's web page at

[http://www.bpelsg.ca.gov/applicants/diagnostic\\_reports.pdf](http://www.bpelsg.ca.gov/applicants/diagnostic_reports.pdf).
