**Demonstration (Sample) Exam**

This section contains information regarding the candidate experience when taking the theory exam with Prometric/IQT. This provides candidates an understanding of all steps related to their experience and what they may encounter.

To take a demonstration test to experience how Prometric’s IQT computer-based test system works, please click here or go to:

Once candidates are checked in and logged into their exam, the first screen will be the Pre-amble screen. This should be read by the candidate in its entirety, as it offers important information needed in preparation of the examination such as the length of the exam and the number of questions. The Pre-amble will change according to the exam the candidate is registered. Once the candidate understands the content in this section, he/she will click on “Begin Tutorial” on the lower left corner.

The tutorial will go over the functions of the examination with the same style and format of the actual exam as shown below. Candidates must demonstrate knowing how the system works by completing the tutorial. Each question must be answered correctly before moving to the next question; otherwise a red box will appear at the bottom left corner, stating the answer was incorrect. The candidates will get a total of 7 questions and 5 minutes to complete the tutorial, which does not affect the time of the actual exam. When candidates answer the last question, a notice will appear that he/she is on the last
question. This is only to notify that all questions have been answered, thus not ending the exam. It is important to understand that candidates must be the ones to choose and click on the items. Once all questions are answered, the candidate will click on “End Tutorial”.

After the tutorial is complete, the candidate will begin their theory exam. During the exam the candidates will have the ability of skipping, bookmarking or commenting on any question:

- **Skipping** – A candidate may choose to leave a question unanswered and come back to it at the end of the exam. This can be achieved by clicking on another question on the navigation grid, or by clicking on the next arrow in the bottom left of the screen.

- **Bookmarking** – When a question is answered and the candidate is not completely certain and would like to come back to it, the question can be bookmarked.
  - Only a question that has been answered can be bookmarked, otherwise the question should be skipped.

- **Commenting** – This function provides the ability to comment on any question that presents irregularities identified by the candidate. All comments are reviewed by the credentialing organization in efforts to improve the exam.

The testing system was designed with the idea that internet interruptions may happen at any given time; as so, all responses, time, bookmarks and comments are saved as candidates answered them. If any interruption were to occur, the candidate’s exam would be reinstated to where they left off, before the interruption occurred.
The candidate will have a navigation grid on the right side of the screen. This will display the bookmarking and comment question options, as well as the time remaining in the exam. The candidate may navigate through the exam by clicking on the arrows on the lower left corner or by clicking on the question they choose to go to on the grid. If the candidate would like to hide the time, this can also be done on the navigation grid by clicking on “Hide Time” as shown below. The navigation grid will display:

- Current question in **green**
- Bookmarked questions in **yellow**
- Answered questions in **gray**
- Unanswered questions in white

When the candidate is finished with the exam, he/she can review all the questions by selecting them on the grid, if there is time remaining. If not, the candidate will get a notice that the candidate is out of time and it will end the exam. If the candidate is done before the time expires, they will receive a notification where they must assure that they would in fact like to end the exam. Once this is confirmed, the candidate will be prompted to the end of exam survey (optional) that will allow them to grade the experience in regards to the testing center and the actual exam as shown below.

**Post Exam Information**

**Examination Results**

A score of 70 percent or above is required to pass the exam. Your exam result letter will provide you with the next step in the licensure process. Be advised that passing the exam is just one component of the requirements necessary in obtaining a license. The Department has sole responsibility for making final licensing decisions.

If you do not pass your exam, you will automatically be reregistered to retake your exam. You will be required to schedule and repay your exam fees.
Appeals Process

Our goal is to provide a quality exam and a pleasant testing experience for every candidate. If you are dissatisfied with either and believe we can correct the problem, we would like to hear from you. We provide an opportunity for general comments at the end of your exam. Your comments will be reviewed by our personnel, but you will not receive a direct response. If you would like to submit an appeal concerning examination content, registration, scheduling or test administration (testing site procedures, equipment, personnel, etc.), please submit an appeal by visiting www.prometric.com/contactus. The Appeals Committee will review your concern and send you a written response within 20 business days of receipt.

Examination Site Closing For Emergencies

Severe weather or an emergency could require canceling scheduled exams. If this occurs, Prometric/IQT will attempt to contact you. However, you may check for test site closures by contacting us at Prometric/IQT. If the site is closed, your exams will be rescheduled without a rescheduling fee. If a test center is open for testing and you choose not to appear for your appointment, you will forfeit your fee.
